

As geographers we will look at foods from different places around the world and compare them to foods from our country. We will have the opportunity to make and taste foods from other countries. We will also look at traditional British foods.

As artists we will sketch pieces of fruit and create collages using different foods. We will also look at the artist 'Giuseppe Arcimboldo' and try to create our own pieces of art based on his paintings. We will do observational drawings of fruit and create a group collage.

*Speaking and Listening*

We will ask questions about foods from other countries.

We will take turns in talking about foods we have tasted.

We will use the trophy words that are displayed in our classrooms when we are talking.

We will talk about a variety of topics with our Speaking Buddies.

*Writing Opportunities*

We will write about different foods.

We will label fruits and vegetables.

We will write the story of 'The Gingerbread Man'

*Maths Opportunities*

We will learn about shapes.

We will learn how to draw and read information from graphs.

We will have various counting, adding and subtracting experiences connected to our topic.

*Social, Moral, Spiritual, Cultural*

We will work together cooperatively in role play and games.

We will take turns in talking and actively listening to each other during our Philosophy for Children (P4C) sessions.

We will take on different roles within our role play area.
