

What training are the staff supporting my child with SEND had or having?

There is an annual audit of staff training needs in the area of SEND during Performance Appraisals. This information is used to identify the most appropriate training.

Training might take one of two forms:

- Individual training - generally in areas of SLCN, ADHD, ASD, Code of Practice or specific learning difficulties. These would normally be training for teachers or teaching assistants working with pupils with these specific needs.
- Whole staff training - a specialist from external services will come in and deliver expertise and training of staff. These may include: Educational Psychology support, SENAAT (Special Educational Needs Assessment Advice Team), Vision and Hearing support, Speech and Language training and support or MEAS (Minority Ethnic Achievement Service).
