

As Geographers we will explore our local area, we will look at all that Tranmere has to offer. We will also study a land across the sea, we will find out about this island and compare it to the area we live in. We will learn geographical words and use these to compare the two locations and look for similarities and differences.

As Designers and Creators we will work on a year group project to create a giant 3D model of this mystery island.

As Artists we will study local landscapes and recreate these through our art work. We will use a variety of tools and techniques to do this.

Speaking and Listening

We will ask questions about our own locality and a faraway place

We will use comparing and geographical words to describe two different places.

We will take on the role of characters from a book.

Writing Opportunities

We will retell stories we hear and add our own endings.

We will send letters and postcards from a land across the sea.

We will write about the settings we explore and the characters we will meet.

Maths Opportunities

We will learn how to use grid references

We will use standard units of length.

Social, Moral, Spiritual, Cultural

We will work together cooperatively on art and D.T projects.

We will share our writing ideas and support each other in our learning.

We will celebrate our similarities and differences.
