

Year 3 Report for Governors Summer Term 2019

Earlier this term, we were delighted to present 'Egyptian Night Fever' to children, parents and governors. It was a lively, fun, energetic and colourful production which had the audience dancing along. Mrs Jones kindly made us some very sparkly costumes to wear.

As part of our geography topic about 'Food' we found out where the food we eat comes from and how it travels here. We researched food from different countries and enjoyed some P4C enquiries about famine and Fairtrade. We also got to try some tasty foods from around the world. We loved the tasty French croissants and crunchy Mexican nachos but the Greek olives were not quite so popular!

We have really enjoyed our science work this term and particularly enjoyed studying shadows as part of our 'Light' topic. We enjoyed fun in the sun and made some great shadow shapes in the classroom and the playground. We also investigated how and why shadows change during the day.

As an entry point for our topic on 'Ancient Egypt' we decorated life size death masks. We researched traditional masks to help us select suitable patterns and colours.

Year 3 are really enjoying our daily 'Meet and Greet'. It's a great start to the day and puts a smile on everyone's face. A hug or a dance with the teacher are the most popular choices! A group of Year 3 children have once again been enjoying Forest School including tree climbing and fire building.

Our visit to Chester Zoo was another truly memorable experience. It was amazing to see real orangutans so close up. The zoo also kindly provided us with a great dance workshop, an environmentally friendly printed shopping bag and a free family pass to the Zoo. How lucky are we? We would like to thank Chester Zoo for choosing to work with our school.

What a wonderful year it has been in Year 3!
