

Week Beginning 27th April 2020

Activities to complete at home this week

Play eye-spy - Can you spy something in your home with your little eye? Tell your grown up what sound it starts with? Can they guess what it is? Take turns to spy. Maybe you could make a list of all the things you spy!

Make a ten frame - Can you draw a 10 frame? Collect some things from outside to place in it.

Can you write the number? How many would there be if you found 1 more/1 less?

Make a sock puppet - Find an old sock, be creative and turn it into your very own puppet! Can you make it talk? Make up a story with it to tell your family.

Remember to share what you do with us on tapestry
