

Week beginning 25th May 2020

Hello again Year 2! A new week, a new set of challenges. As always we have been checking your books on Bug Club and adding new 2Do's to Purple Mash. Given it's half term we'd like to see how many of these fun family activities you can complete:

During a walk, see which animals you can spot and how many of each. When you get home can you record your findings in some way?

Set up a tuck shop in your house so you can practice using money, calculating change and budgeting to buy yourself a snack each day.

Place a piece of paper on the ground outside and on top of it arrange some of your toys to create a shadow scene. Draw round the shadows for a permanent image.

Sun Safety!

We have hit that time of year when we have to think about how we are going to stay safe in the sun. Try these different tasks:

Go on a shade hunt:
Find three places that would be good to play in, in the shade over lunchtime.

Create your own action poem: Make up a small rhyme to remember to use suncream and a hat.

Can you make a fun sun hat or pair of sunglasses? Try getting an adult to take a picture of you.

Find the warmest and coldest surfaces in your garden or an outdoor space. Why are they hot or cold?

Make a sun safe person using a balloon or a potato. Include shade, a hat and sunglasses.

Try the Soltan Sun Ready Challenge app to watch videos and complete other challenges.

Set yourself up an obstacle course indoors or out. Take it in turns to complete the course. You could use a stopwatch to time a lap.

Find a cosy spot in your house and using blankets, tables, sheets or other items build yourselves a den that you can sit inside.

Nature involves lots of patterns. Have a look around you and see what patterns you can find - symmetrical, coloured, lines, shapes can all be part of a pattern.
