

Key Stage One

Autumn Term

Year One

Year One have loved being back in school and we were very excited to start our first Year One topic of Sensational Seasons. We have been finding out about what to wear in each season, how to do a weather forecast and Mrs Porter came for a visit to teach us all about the changes in the trees during the seasons.

As part of Healthy Eating week, we designed and made a healthy watermelon pizza. We used natural yoghurt for the sauce and then topped it with some of our favourite juicy fruits. We enjoyed making it so much that some of us even had a go at creating our own at home. They were delicious!

In October we celebrated Black History month. We read poems by the activist Maya Angelou and we made our own art work in the style of William T Williams.
