# **Physical Education at Mersey Park Primary School**

#### What we teach

At Mersey Park Primary School, we follow the guidelines set by the National Curriculum and the Statutory Framework for the Early Years Foundation Stage, and this is mapped out in broad and balanced blocks using the Wirral Scheme of Work for PE. We believe that PE is a vital part of school life and ultimately children's future well-being. It is therefore our intent to provide an inclusive, broad and balanced PE curriculum that ensures ALL children will benefit, whether through enhancing existing skills, learning new skills or being introduced to new sports, clubs, teams and organisations. It is our aim to ensure children know the importance of leading a healthy lifestyle and to equip them with the tools to do so through health and well-being education. Children know how to take care of themselves both physically and mentally in order to be successful as adults. Beyond merely a subject, we believe that participation in sporting activity is a key element of developing a school in which pupils are proud of the community in which they belong. We believe it is important to encourage our pupils to positively engage with our local community and be active citizens within it to help promote a sense of belonging and pride in our local area. We encourage an inclusive environment with all of our curriculum and ensure all pupils, including those most vulnerable and those who are disadvantaged, have the opportunity to access the full and broad curriculum through carefully planned support and scaffolding as required.

#### How we teach it

We provide a progressive and enjoyable PE curriculum that meets the needs of pupils from Reception to Year 6 and allows pupils to experience a range of activities that help them to develop their health, fitness and wellbeing. The curriculum inspires all pupils to succeed and excel in competitive sport and other physically-demanding activities. It provides opportunities for pupils to become physically confident in a way which supports their health and fitness. As well as weekly PE lessons, pupils are encouraged to keep active at break times by engaging with activities such as 'Mile-a-day', Key Stage 2 circuits, Key Stage 1 Yoga and Anomoly board activities. We also offer a whole school day each half term that focusses on physical and mental well-being. The curriculum is further enhanced by participation in sporting tournaments with other schools in the area, inter and intra class competitions, as well as after school clubs. We offer clubs that allow pupils to experience a diverse range of sporting activities, that they may not otherwise have opportunities with which to engage.

Pupils are regularly reminded about what it means to be a 'good sport' and we provide them with opportunities to compete in sport and other activities which build character and help to embed values such as fairness, respect and teamwork, principles we have identified as areas of development for our pupils.

Children are taught by both teaching staff and professional sports coaches from Reception to Year 6., to ensure that we offer a range of activities that allow each child to feel challenged and offer opportunities to progress further. Our whole school curriculum overview maps out the links to key areas of the National Curriculum and identifies professional sports people who embody sporting traits such as confidence, resilience, courage and ambition. Pupils are encouraged to discuss what makes these individuals so successful in their chosen field. Through this we hope to inspire our pupils to aim high and follow their ambitions, developing perseverance, grit and determination whilst developing their own personal goals, ambitions and leadership skills. Our aim is that through PE all children will develop skilful use of the body, the ability to remember, repeat and refine actions and to perform them with increasing agility, balance and co-ordination.

From Year 4 upwards, classes will attend daily, one hour swimming lessons for one week each year.

A strong focus for teaching is the use of correct technical vocabulary. Teachers carefully plan the language they use during their sessions and model, through discussion, specific technical vocabulary to help embed this language in the children's long term memory. This is also reinforced through the use of Knowledge Organisers which are used to recap, revise and revisit key vocabulary regularly and short informal quizzes are used to embed knowledge.

Teachers are provided with regular opportunities to develop their own subject knowledge through sharing good practice, peer observation and visiting experts. Teachers also regularly take part in practical CPD sessions ran by professional sports coaches or school staff, following training.

#### SMSC through P.E.

Through our P.E curriculum pupils show a range of skills including teamwork, sportsmanship and self- reflection through our half termly focused themes. We provide opportunities for children to consider their moral understanding by teaching them about codes of conduct, etiquette and unwritten rules. Through participating in both competitive and non- competitive activities, children are given the opportunity to adopt leadership roles, respect differences in ability and share ideas in a supportive environment where they can learn to give reasoned views and respect the views of others. In doing so, our pupils may develop a deeper understanding of the importance of laws, consequences for actions and justice.

As well as reinforcing friendships and social mixing through involvement in sport and extra-curricular sporting activities, lessons provide opportunities for pupils to cooperate with others from various backgrounds. We want pupils to develop and demonstrate the skills and attitudes which will help them participate fully and contribute positively to life in modern Britain. Our focus on famous sportsmen and women through the curriculum reinforces these positive attitudes.

#### **Impact**

PE is monitored through a variety of strategies, including planning scrutiny and lesson observations. Summative assessments take place throughout the year and teachers record the progress and attainment against the National Curriculum expectations. Teachers use this information to inform future lessons; ensuring children are supported and challenged appropriately. This data is analysed regularly to inform and address any trends or gaps in attainment. Information is also gathered through pupil questionnaires, which highlight both strengths and achievements and the knowledge and skills that require further work in order to be embedded. Final end of year assessments are made using criteria that have been developed in line with the National Curriculum and Target Tracker, to identify the level at which the child is working. Age related expectation levels are reported to parents at the end of each year. Each part of the PE curriculum is reviewed on a termly basis by the subject leader.

By the end of Key Stage 2, pupils are expected to know, apply and understand the skills and processes specified in the relevant programme of study. We aim to produce active pupils who value the importance of physical fitness as well as healthy minds and bodies. We hope our pupils leave Mersey Park understanding the importance of being a 'good sport' and develop an appreciation of sport as a way of bringing people together and building a strong sense of community. Through our inclusive teaching methods, we aim to develop pupils who see sport as a platform for bringing together people from all different cultures, ethnicities and backgrounds and, in turn, produce pupils who demonstrate acceptance and appreciation of diversity in sport.

# **Early Learning Goals**

# Gross Motor:

- Demonstrates strength, balance and coordination when playing.
- Moves energetically, such as running, jumping, dancing, hopping, skipping and climbing.
- Is able to negotiate space and obstacles safely, with consideration for himself/ herself and others.

#### Fine Motor:

- Is beginning to show accuracy and care when drawing.
- Holds a pencil effectively in preparation for fluent writing- using the tripod grip in almost all cases.
- Uses a range of small tools, including scissors, paint brushes and cutlery.

## **Physical Education National Curriculum Subject Content**

#### **Key Stage 1**

Pupils should develop fundamental movement skills, become increasingly competent and confident and access a broad range of opportunities to extend their agility,

balance and coordination, individually and with others. They should be able to engage in competitive (both against self and against others) and cooperative physical

activities, in a range of increasingly challenging situations.

Pupils should be taught to:

- master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and coordination, and begin to apply these in a range of activities
- participate in team games, developing simple tactics for attacking and defending
- perform dances using simple movement patterns.

#### **Key Stage 2**

Pupils should continue to apply and develop a broader range of skills, learning how to use them in different ways and to link them to make actions and sequences of

movement. They should enjoy communicating, collaborating and competing with each other. They should develop an understanding of how to improve in different

physical activities and sports and learn how to evaluate and recognise their own success.

Pupils should be taught to:

- use running, jumping, throwing and catching in isolation and in combination
- play competitive games, modified where appropriate [for example, badminton, basketball, cricket, football, hockey, netball, rounders and tennis], and apply basic

principles suitable for attacking and defending

- develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- perform dances using a range of movement patterns
- take part in outdoor and adventurous activity challenges both individually and within a team
- compare their performances with previous ones and demonstrate improvement to achieve their personal best.

# Swimming and water safety

All schools must provide swimming instruction either in key stage 1 or key stage 2. In particular, pupils should be taught to:

- swim competently, confidently and proficiently over a distance of at least 25 metres
- use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]
- perform safe self-rescue in different water-based situations.

# PE Adaptations that may be needed for children with SEND

#### **Invasion Games**

Change the Size/type of bai	ige the Size/type of I	bal
-----------------------------	------------------------	-----

Lighter balls that travel slower in the air and give more time.

Larger balls that are easier to see or catch.

Softer or slightly deflated balls that travel slower along the ground.

Different coloured balls for children with a visual impairment.

Change the number of defenders v attackers.

Make the court/game area bigger or smaller.

Introduce specific zones (e.g. safe zones)

Make the targets bigger.

Increase number of targets for scoring.

Adjust the height/position of targets.

Increase/ decrease the number of touches of the ball.

Provide more time to pass (e.g more than 3 seconds for netball)

Partner work.

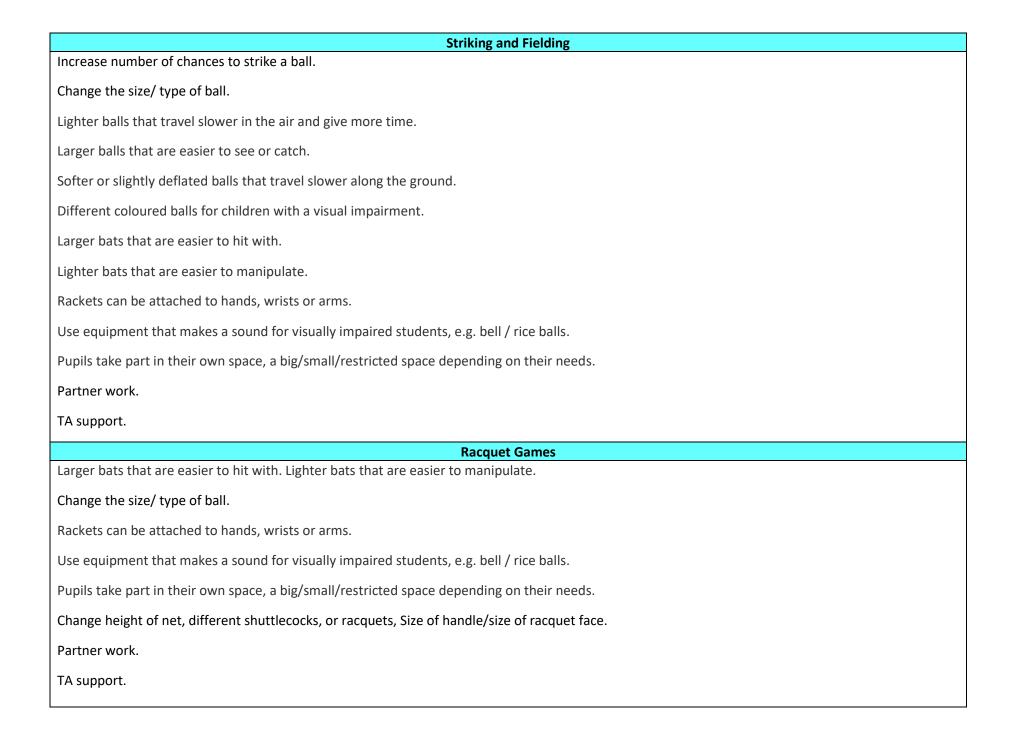

Simplify the rules.

Reduced the game time.

Play on a different surface.

Pupils take part in their own space, a big/small/restricted space depending on their needs.

TA support.

Athletics
Allow participants to start from different places.
Adjust the height/position of targets and activities.
Change the size/material of equipment.
Pupils take part in their own space, a big/small/restricted space depending on their needs.
Make the area bigger or smaller.
Using mats as a landing area/ Larger landing area.
Closer take off positions.
Use lines on the floor as markers.
Soft Landing mats.
Larger landing area.
Tape measure with larger numbers.
Shorter distance/shuttles rather than laps.
Earlier start.
Larger baton.
Pair up with someone who can collect the equipment/ partner work.
TA support.

Gymnastics
Markers on the floor in designated space in the hall where other pupils are doing the task. Make peers aware to be mindful of this space.
Good balance of gym stations that are accessible.
Lower equipment - bench/box/beam.
Use of bigger/thicker mats/ crash mat.
Larger surface area to complete task.
Attach equipment to the individual. e.g. ribbon.
Repetition of skills.
Shorter set of instructions.
Work in groups.
Holding to peers/adult's hand for support.
Support for balance/jumping tasks.
Dance
Bigger or smaller area.
Smaller sized class/group.
Modified to ability and mobility of child – movements, stimuli, direction, speed, dynamics.
Ques to remember sequences - verbal/non-verbal .
Dancing with different part of body e.g. Indian dance with hands.
Repetition of gestures/poses.
Shorter set of instructions.
   Small Group/Partner Peer feedback through demonstration.

Teacher to move pupil when giving instructions to the class.

	_		_
O		- La A	dventure
	101011 2	ann Ar	ivenitire

Make the area smaller.

Simplify the map.

Simplify the rules.

Reduce equipment.

Reduce the number of symbols.

Group work.

TA support.

Use of sound, touch or different colours to help some pupils with navigation.

Alternative routes for orienteering, with wheelchair routes or stable ground for pupils with walking aids.

# **STEP Model**

The STEP mode is a simple tool that guides us through what could be changed to make an activity more inclusive. This enables us to make an activity harder or easier to ensure there is appropriate challenge for all learners to achieve.

STEP stan	ds for	How can I change?
S	Space	Where the activity is happening?
Т	Task	What is happening?
E	Equipment	What is being used?
Р	People	Who is involved?
