

Year 3 Report for Governors - Summer Term 2026

In Literacy, we are currently reading 'The Ice Palace'. What an adventurous story based in a faraway land! This exciting story has inspired us to write letters and diary extracts from the main characters.

In Maths, we have been studying fractions and converting measurements. We are also getting quicker with our times table recall. In our Monday morning assembly, we have also been learning about saving money and how a bank account helps us to do that.

We have really enjoyed our Science work this term and particularly enjoyed studying plants. We learned about germination, and we also dissected a lily flower to look at its various parts – we had to be very delicate. It was a tricky topic with lots of challenging vocabulary but, as usual, our Mersey Park Mindset meant that we didn't give up.

As part of our Geography topic on 'Food' we found out where dairy food comes from by visiting a dairy farm in Cheshire. What an amazing day we had! We patted the calves, fed the cows, made our own butter and then watched the cows being milked. We also met Finn, the 3-legged sheepdog and tasted delicious homemade fairy cakes from the farmer and his wife. Thank you to The Country Trust for making this wonderful trip possible.

Here is our Queen Victoria timeline - we could not believe that she had 42 grandchildren! We are really looking forward to visiting the beautiful and historic Port Sunlight Village soon and then to our Victorian Day in school later on in the term – we hear that Victorian teachers were very strict so we better be on our best behaviour!

Year 4 Report for Governors - Summer Term 2026

In Maths, we have also been working extremely hard on our times tables in preparation for the national times table test. Lots of us are now TT Rockstars 'Rock Heroes' thanks to our hard work and determination in school and at home. In Literacy, we completed a fantastic, slightly gory unit of work based on the Anglo Saxon story of 'Beowulf'. The 'boxing up' Talk for Writing strategy helped us develop our own ideas to write our own version of the original story with new imaginative changes. In Geography, we used our Voice 21 skills and had a fabulous debate about whether we would rather live in Wirral or Andalucia.

A real highlight this term has been a trip to Chester Zoo with Year 5. Following on from workshops in school, we then visited the zoo. We saw so many beautiful animals. Firm favourites were the penguins, the cheeky chimpanzees and the baby Snow Leopard. What a fantastic day – thank you so much Chester Zoo!

We have also really enjoyed our Science topic on sound even though it has been a little noisy at times. Our teachers said it was probably for the best if we took our paper straw trumpets home to play! We have also really enjoyed our most recent Art project. We worked with our friends to make paper sculptures to promote words of kindness and positivity. We had to wait for a sunny day so they cast a good shadow.

We cannot wait for our overnight stay at Barnstondale with our friends and teachers where we will get to try out so many new, exciting activities.

Middle Floor Extras

We all got the chance to work together in our amazing 'Unbreakable' concert. What a fantastic team effort! Our singing and dancing were incredible! Our year group poetry recitals were also a great success, as always. Did you know that grans can rap? We love our Learning Buddy sessions. Our latest one was all about staying safe online.

We have also had the opportunity to join in with lots of after school clubs including cookery club, art club and reading club.

We are always active and love all the extra fitness days in school. We are now looking forward to a sunny Sport's Day and to many more adventures before the end of term.
